

About Procore

Procore Technologies, Inc. (NYSE: PCOR) is a leading technology partner for every stage of construction. With more than two decades of experience, over three million projects in 150+ countries have run on Procore’s purpose-built, unified platform. From project planning to completion, Procore’s innovative technology delivers AI & data-driven insights to help teams build with efficiency, predictability, and safety.

By harnessing the power of technology and deep industry expertise, Procore is committed to shaping a better future for construction professionals, projects, and communities.

Whether it’s a small-scale build or a large-scale infrastructure development, Procore connects every stakeholder through seamless communication and collaboration, delivering the tools and insights needed to overcome challenges and achieve success across the construction lifecycle.
