## — 50 WORD DESCRIPTION

Procure's Invoice Management solution makes it easy to collect, review, and approve invoices to avoid project delays and get everyone paid faster. This product enables you to accurately bill for work completed, simplify subcontractor billing management, and streamline communication across billing stakeholders.

## — 100 WORD DESCRIPTION

Procure's Invoice Management solution makes it easy to collect, review, and approve invoices to avoid project delays and get everyone paid faster. This product enables you to accurately bill for work completed, giving you the confidence that sub invoice amounts match the amount of work completed, and no invoices have been missed. Simplify sub billing management with easy to use tools designed to collaboratively review, track, and approve invoices from a single location. And streamline communication across billing stakeholders to ensure that all subcontractors, owners, and project teams have access to the latest information in a format that everyone can understand.
