

# Procore for Subcontractors

Think Procore is just a general contractor's solution? Think again.

While there are countless construction management solutions out there on the market, most of them are specifically built for general contractors. Luckily, there is a solution built for you. Procore is, and continues to be, focused on delivering value to field teams. With its comprehensive platform, Procore helps eliminate manual processes and outdated systems—saving you time, money, and headaches.

## WHAT ARE YOUR HEADACHES?

## PROCORE'S SOLUTION

	<b>Multiple, single point solutions</b> causing a lack of standardization and siloed data, costing time and money	<b>One centralized platform</b> that standardizes processes across all teams and projects
	<b>Various documentation systems</b> , increasing liability and risk in the case of a dispute	<b>Consolidated document repository</b> that allows you to show progress of work clearly and in context at any moment so you get paid faster
	<b>No way to track and monitor</b> safety trends, resulting in increased onsite risks	<b>Robust reporting tools</b> that help you identify safety risks and reduce injuries
	<b>Clunky systems</b> or outdated tools, inhibiting employee buy-in	<b>Intuitive, easy-to-use tools</b> that ensure employee buy-in, especially for field teams
	<b>Outdated and slow virtual private networks</b> (VPNs), delaying tasks and hindering project efficiency	<b>Mobile functionality</b> that helps improve field-to-office communication for better efficiency
	<b>No effective way to manage quality of work</b> , often resulting in rework that cuts into profit margins	<b>Quality control system</b> that allows you to monitor quality standards and ensure the job is done right the first time, protecting margins
	<b>Outdated data</b> , making it difficult to spot trends or risk areas	<b>Real-time data</b> and powerful insights for better data-driven decisions
	<b>Lack of visibility</b> into how progress in the field is measuring up to original budget and schedule	<b>Powerful insight</b> into real-time labor hours and installation progress, helping you stay on budget and in schedule
	<b>Per seat license</b> , creating access limitations and ultimately inhibiting collaboration	<b>Unlimited user license</b> for seamless collaboration between the field, office, and general contractor

# A Solution Built for You

Construction management solutions aren't just for general contractors anymore.

---

With a robust toolset—complete with financial, productivity, quality, and safety tools—Procore helps you drive production and profitability. Plus, with over 100 third-party integrations, it helps standardize processes while offering the flexibility you need to be successful. That way, you can spot trends and course correct in real time to become more efficient, productive, and profitable.

## Hear from the industry

“In three months, Procore paid for itself—just through purchase orders alone. It was part of a growth of \$10 million in revenue in the first year that we used Procore. The value that we got back in the return, and those increased margins, was worth the investment.”

**WES SIMPSON**

CHIEF OPERATING OFFICER  
GREEN MECHANICAL CONSTRUCTION

“Procore is definitely the bridge between the two worlds—the guy that’s actually working off of a ladder and the guy that’s working at a desk. It’s nice not to be concerned with picking and choosing who needs access to the data. That way, you’re able to keep your entire project team involved. Unlimited users, unlimited data storage—that just keeps everybody free to communicate.”

**DAVE WOODY**

DIRECTOR OF PROJECT DELIVER  
DOMINION MECHANICAL

“With just the Timesheets Tool alone, I’m able to save 6 different project managers 6 hours a week. I assure you that amount is well over the price I pay for Procore in totality.”

**BRANDON LOPEZ**

CHIEF OPERATIONS OFFICER - VP OF PRODUCTION  
ABLE COMMUNICATIONS

“We have the option of setting up reports so that we don’t have to bother the guys in the field at all to know how much time they’ve worked. We just receive that information automatically in our inbox. Procore is constantly improving their capabilities to help us meet our business needs.”

**YOSLAINE MUCHULI**

PROJECT CONTROLLER  
BENGOA CONSTRUCTION
